

AGAB dismantles and moves a fully automatic 6-press line and contributes to circular sustainability!

The line is in production but is looking for a new owner from October 2022!
The line consists of 6 Müller presses 1300, 1800 and 4 600 ton presses and is fully automatic incl. quick die change with die carts and clamping from AGAB.

Automation with destacker, lubrication and feeders. At the end of line there is an automatic tunnel washing equipment.

For more information please contact us at AGAB www.agab.se
